Golden Eagle Flight Plan

UML Class Diagram — Conceptual Data Model

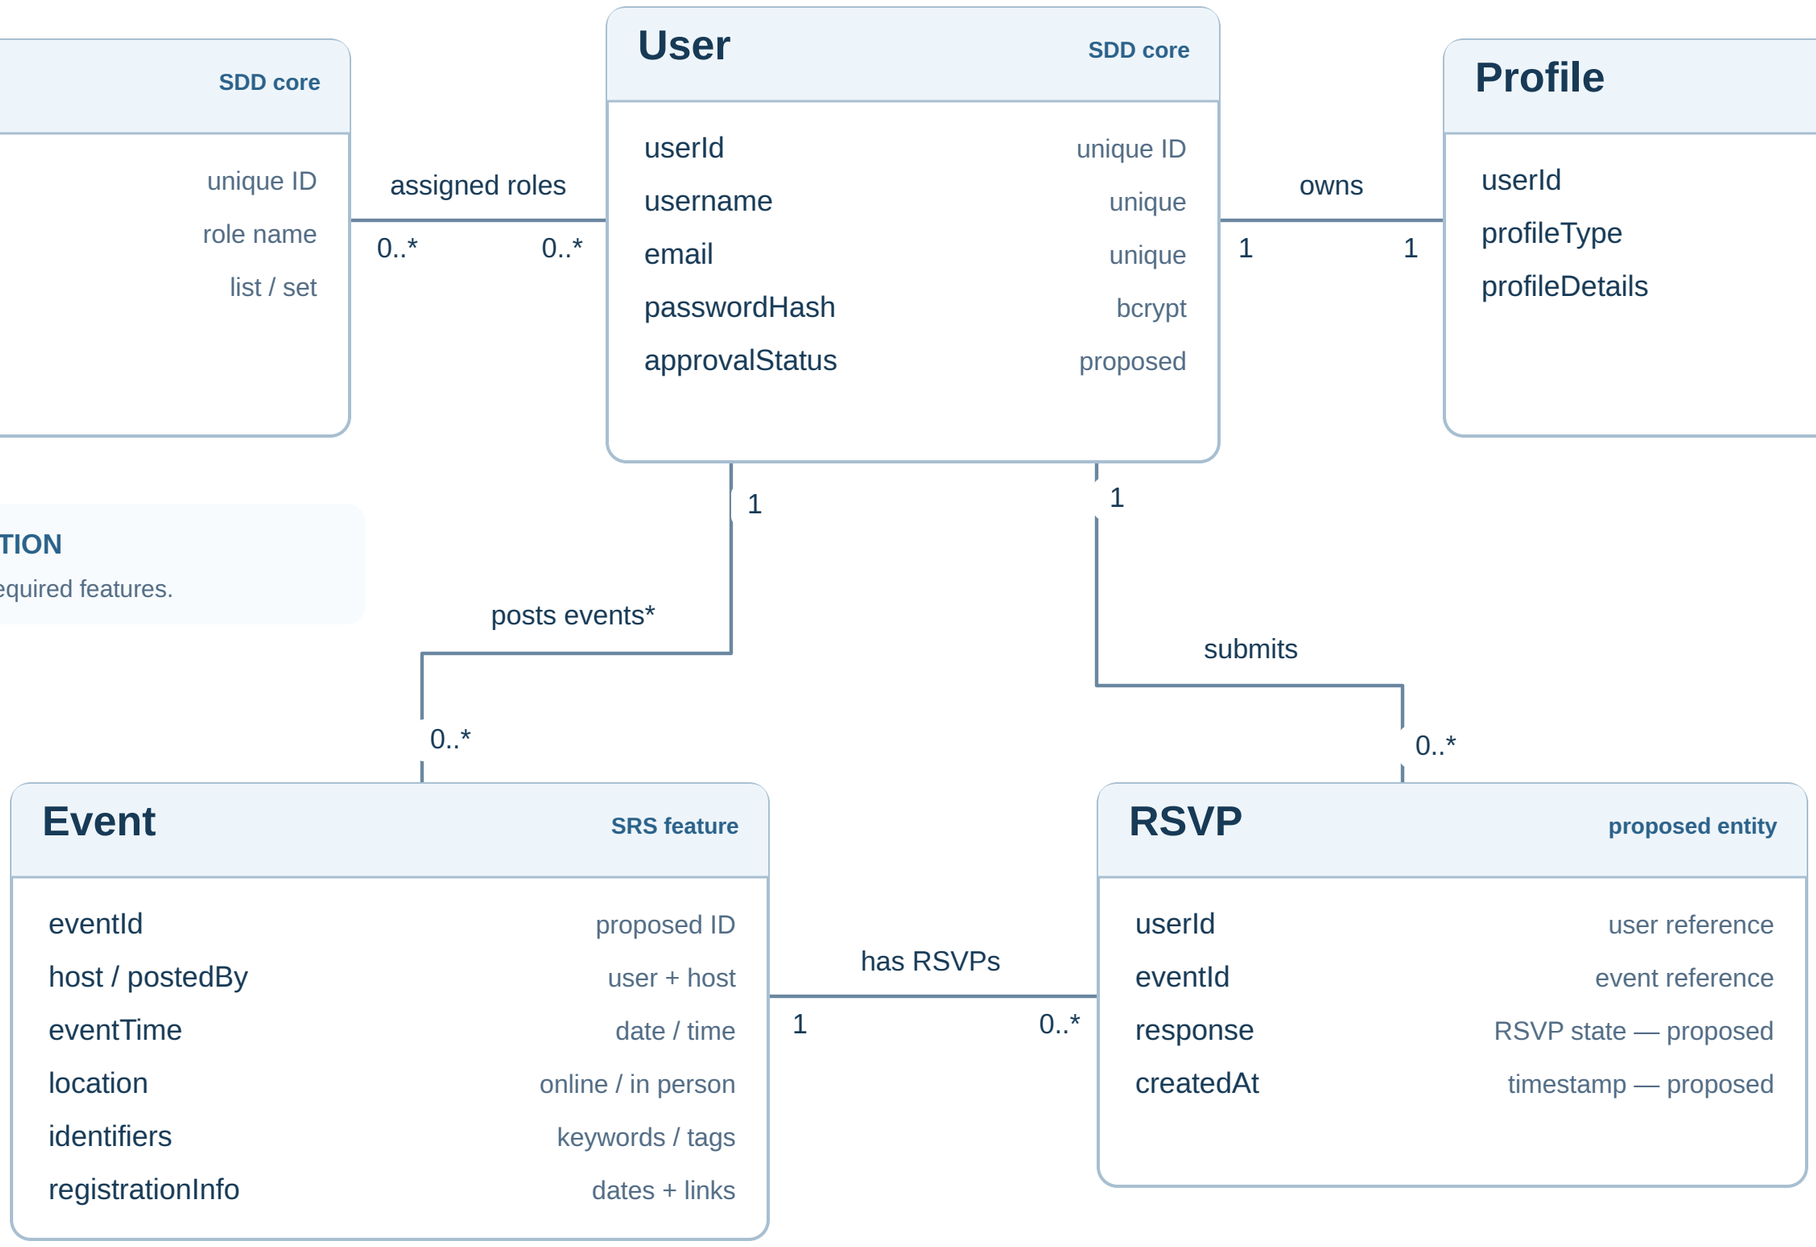
Based on the team's SDD and SRS

CORE ACCOUNT RECORDS

Users, roles, and profiles are described in the Software Design Document.

EVENT PARTICIPATION

Events + RSVPs are required features.



How to read this diagram

1 = exactly one • 0..* = zero or more • Line labels describe relationships between records.

* Event posting is limited to faculty, student organizations, and admins by the SRS permissions.

Planned design only. Scoreboard tasks/completions and exact database fields need agreement with the team.
